

## Activity Week 2020

29<sup>th</sup> June – 3<sup>rd</sup> July 2020

# ACTIVITY WEEK

**29<sup>th</sup> June – 3<sup>rd</sup> July 2020**

Welcome to this year's Activity Week booklet. To our Year 7 students this is a new venture with exciting prospects and to Years 8, 9 and 10 it will rekindle interests from earlier projects. There is the opportunity to continue a course already attempted, try a new course or take part in a residential trip.

## **What is Activity Week?**

The simple answer is that it is a time when both students and staff can share experiences that are not usually available during the rest of the academic year. Even a cursory glance at the course titles on the Overview page will give you an idea of the great range of experiences available.

The normal school timetable and curriculum will be suspended for the week.

Activity Week was endorsed at our last full Ofsted inspection when the team stated that they felt that it enhanced the student's education.

Year 10 students are included in our offer and courses for Year 10 are offered as extensions to GCSE courses and so are aimed at Year 9 and Year 10 students who are taking the linked GCSE. They are not, however, an essential part of the course and we intend that they will excite and motivate students to extend their learning in those subjects.

Courses have been split into KS3 and KS4 although there is some crossover in Year 9. The booklet indicates who may apply for advertised courses.

All students are expected to participate in, and benefit from, the week.

Some courses are expensive, some less so, while others are completely free of charge.

New skills can be learned, new friends made, new challenges met and overcome.

## THE AIMS AND OBJECTIVES OF ACTIVITY WEEK

All courses arranged for the week include elements that can be identified in the various National Curriculum documents and the week is specifically designed to enrich the school curriculum and provide opportunities to:

- learn a variety of new skills
- develop self-confidence and self-reliance
- develop a sense of responsibility
- work co-operatively
- provide experiences outside the scope of the normal curriculum
- promote the achievement of short-term goals
- reinforce the development of the social and personal skills in new situations
- encourage self-assessment

Through the residential experience, there are a number of additional aims and objectives:

- to encourage corporate spirit
- to develop self-confidence, self-reliance, maturity, awareness and a sense of responsibility
- to promote and improve personal physical ability
- to visit a foreign country and encourage students to use a foreign language
- to experience foreign culture

### **Special note regarding charging for activities within the academic year:**

The 1988 Education Act has implications regarding charging for school courses such as those outlined in the booklet:

There is no legal obligation for you to contribute and indeed no child at Lutterworth High School will be treated differently according to whether or not his/her parents have made a contribution. It must be made clear at the outset, however, that courses on offer may not go ahead as planned if there is insufficient financial support.

Please take special note that:

Whilst every effort will be made to give students their first choice, it is inevitable that some will have to be placed on one of their other preferences. Do not choose any course that you would not be happy to participate in.

Courses are allocated to ensure that as many students as possible get their first choice. Allocating courses can be complicated and, whilst we make every effort to give students their preferred option, it is inevitable that some will be disappointed. We are happy to place these students on a waiting list for their preferred option.

Once allocated a place on a course it will not be possible for a student to switch to another course unless there are exceptional circumstances.

Students who have not been offered a residential course before are prioritised whenever possible if they have chosen a residential course this year. Please indicate on the form if this applies.

Students will be required to pay a non-refundable deposit very soon after allocation. Once places are allocated, a payment schedule will be sent out (for instance, a course at £500 would start with a deposit of £150 with three equal payments to follow spread between November and March). All payments for all courses will be handled using Scopay via the website. **Please note that all costs listed in this booklet are approximate and the final payment will be adjusted within 10% up or down of the cost shown. You will be notified of any change bigger than this.**

The balance of all course costs must be paid by deadline dates. Failure to meet deadlines for payment, unless special arrangements have been agreed between parents and school, may result in your child forfeiting their place.

Some courses require a high level of physical fitness. Students who have opted out of PE and swimming sessions at school on a long-term basis for reasons other than serious medical conditions or long-term injuries are unlikely to be allocated a place on sports-related trips.

The prices for overseas residential trips are subject to confirmation of 2020 admission, transport prices, the current performance of the Euro and consequently may be subject to change. It is worth noting here that the outcome of the Brexit negotiations may affect the Euro.

Thank you for taking the time to read this information.

## **What you need to do:**

Carefully read the information with your Parents/Carers. Complete and return your application to your tutor on **Monday 21<sup>st</sup> October 2019.**

**Ready to select your course?** This is what you do:

**Step 1** Read the booklet carefully with your parents or carers. Remember that we will spread the payments across the year.

**Step 2** Complete the application form giving us three choices.

**Step 3** Check that all the information required is on the application and give it to your tutor after half term.

**DO NOT SEND A DEPOSIT WITH YOUR APPLICATION**

## **You need to know:**

Students who do not return the form by the deadline will usually have their choices looked at *after* the others have been processed.

No course - residential or school based - is allocated on a first come, first served basis.

## **Finally:**

Your child should submit their option form to tutors on **Monday 21<sup>st</sup> October 2019.**

## **FURTHER ACTIVITY WEEK INFORMATION**

### **Online Payments**

Please use the 'Online Payments' service which can be accessed via [www.lutterworthhigh.co.uk](http://www.lutterworthhigh.co.uk). If you require an 'online link code', please e-mail [showells@lutterworthhigh.co.uk](mailto:showells@lutterworthhigh.co.uk). Please do not make any payments until you receive the specific trip letter offering you a place on your preferred course.

### **European Health Insurance Cards (EHIC)**

If you have chosen to go on a residential trip abroad and either do not have an EHIC card or yours is out of date apply for a new one as soon as you have confirmation of your course. Apply online to [www.dh.gov.uk/travellers](http://www.dh.gov.uk/travellers). Without an up-to-date card, you will not be able to go on your chosen trip.

### **Collective Passports**

For overseas trips, trip leaders will let you know what arrangements are being made with the passport.

### **Consent Forms**

When completing your child's consent form please complete and sign both pages and ensure all contact information is correct. These are issued when students are offered a course.

All enquiries: [activityweek@lutterworthhigh.co.uk](mailto:activityweek@lutterworthhigh.co.uk)

### **Activity Week – Application for Financial Assistance**

There are a number of ways in which the school is able to support families requiring financial assistance. Should you wish to request support please contact Mrs Howells ([showells@lutterworthhigh.co.uk](mailto:showells@lutterworthhigh.co.uk))
